**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The United States needs more competition in broadband service providers. The availability, service levels, and cost is incredibly worse in this country than any other first world location. Quality broadband is critical to the U. S. In maintaining its competitiveness in the world marketplace, all levels of education, and scientific research. I currently get broadband service from a small ISP which gives me faster service with no caps, no sales of my browsing history, and all at a lower price.
